The County Commission conducted a Public Inspection at 8:05 a.m. Vera McCormick stated that machines from all 160 precincts have been previously tested. Inspection of the voting machine for precinct 179 was completed with a zero totaled out receipt printed. Voter Warehouse doors were locked and will remain locked until machines are moved to correct precincts for Election Day. At 8:40 a.m., 291 ballots were scanned through the M100s at Voter Registration. Additionally, Vera McCormick opened seals on supply boxes for precincts 246 and 281. This was to verify contents and then they were resealed. Commissioners verified the test was run properly and that the tabulation was correct with a total count of 291 ballots; 138 Democratic Party Ballots and 153 Republican Party Ballots. Documentation is attached. Upon completion, the Tabulator Machine was secured. In the past, the door to the tabulating room was locked, this has been deemed impossible as the room will be needed to process election materials from the City of Charleston's election. The Program Card was placed in a strong box and will be placed in an undisclosed, secured location; where it will remain until Election Day.

Commissioner Carper directed staff to research updating current security camera features in order to provide improved security for the election process.

Commissioner Hardy moved to adjourn the public test at 9:20 a.m. Commissioner Carper seconded. Motion carried.
